**ANNUAL MEMBERSHIPS AVAILABLE**

**HOW DID RAILWORLD WILDLIFE HAVEN START?**

In 1968 Rev Richard Paten, brought the scrap locomotive 73050 from British Railways. That was the start of the Nene Valley Railway (NVR). In 1985 Richard had the opportunity to purchase the derelict power station coal yard here in Peterborough, that kick-started the project to create an inner city wildlife haven.

Network Rail donated Victorian aqueducts from Abbots Ripton. We have also had amazing help from local, national and international companies. Many have kindly donated materials, machines, and monetary donations for specific projects. Caterpillar Inc, Peterborough Round Table, the Peterborough Rotary Clubs, BGL Group has been tremendous, as have Schneider Electric, Stantec, Bakkavor, RSA, Peterborough City Council, Circlefire, Perkins Engines, A1 Steel Limited, Norwich and Peterborough Building Society, Skanska and Yorkshire Building Society.

## RTV 31 HOVERTRAIN PROJECT

"Our entrance features the Hovertrain RTV31. Volunteers saved her from the scrap man – but it's been outside for nearly 50 years! We will approach the National Lottery Heritage Fund to tidy-up and house this unique exhibit and its archive, drawing attention to its remarkable history! Sir Christopher Cockerell invented the hovercraft. Professor Eric Laithwaite advanced the linear motor concept. In the late 1960s a development centre and test track was built in Earith, Cambridgeshire.

During testing Research Test Vehicle 31 reached 107mph – RTV 31 – the first train without wheels! A truly British Pioneer!

## OVER 2,000 sq ft OF MODEL RAILWAY! EXTENSIVE GARDEN RAILWAYS AND INCREDIBLE '00' GAUGE

### 'ENJOY A GREAT FAMILY DAY OUT'

"This place is a hidden gem. Just a great place to escape the busy town life and relax. Such friendly and helpful staff (volunteers)." **Nicola H** ★★★★★

"What a nice little gem this is in Peterborough. Kids absolutely loved it from the model trains to exploring the gardens" **Tomchap7** ★★★★★

"We all had a fantastic day out, there was so much to see and do - we can't believe we left it so long before visiting as we can't wait to go back." **Becky B** ★★★★★

"Took a school trip to Railworld in February with 90 children. During the visit, we had the lovely opportunity to meet the Duke of Gloucester who was also visiting the wildlife centre" **Sahara** ★★★★★

**PLEASE NOTE**  
Children MUST be supervised at all times.

## SPEND A DELIGHTFUL DAY WITH THE NENE VALLEY RAILWAY (NVR) & THE RAILWORLD WILDLIFE HAVEN

Nene Valley Railway is the UK's leading international steam attraction, based at Wansford Station, and covering the stations of Overton (for Ferry Meadows), Orton Mere, Yarwell Junction, and Peterborough (Nene Valley).

Stretching over 7 miles - The NVR is a living, breathing, heritage railway, that is looked after and maintained by its loyal band of incredible volunteers.

A ride on the Nene Valley Railway offers the chance to experience the thrill of steam or diesel locomotive haulage, learn about the NVR's history and explore the picturesque, wildlife rich surroundings of the railway.

**Peterborough (Nene Valley)** is the eastern terminus of the NVR. The area surrounding the station was once the site of the LNWR's Woodstone Locomotive Depot: - volunteers have excavated the LNWR Turntable pit and some of the depots footways. Railworld Wildlife Haven is the home of the NVR archive department, where many important historic documents and photos are kept.

### Please take care!

- You are welcome to visit this area where toilets are also available. These sidings are storage for wagons and rolling stock awaiting restoration.

## World Temperatures

Comparing JUNE 1976 to JUNE 2018

The reality is if 'Man-Made Climate Change' is not as bad as we think, then the worst that we could have done is cleaned up some pollution and made our fossil fuels last longer.

However if 'Man-Made Climate Change' is real, then the worst we can do is make our planet much more difficult to live on.

## OPEN SOON CLIMATE EXHIBITION

Find out what really is happening to 'Our World'

## An oasis of enthusiastic volunteering and visionary conservation

Set right in the heart of Peterborough, less than 500 metres from the city centre and adjacent to the Nene Valley Railway (NVR), is the Railworld Wildlife Haven. Our slogan - 'Entertain and Educate about Our World' - 'Volunteers Creating Habitat for Nature with Model Railways' is delighting visitors of all ages with it's intriguing and exciting wildlife haven, with Victorian bridges, ponds and waterfalls, main line viewing platform, films and expansive model railway layouts. Bob Clarke's team look after the railway aspect - 2,000 sq ft of Railway Activity - Model Trains of all sizes.

## So much to see in this fascinating place!

Passionate conservationists - have, aided by legions of volunteers, companies, groups and individuals, spent the last 25 years turning three acres of derelict, former power station coal yard into a beautifully scenic wildlife habitat, home to over 300 species of Flora and Fauna.

The 'Railworld Wildlife Haven' Creating Habitat & biodiversity!

15 years separate these 2 photos! Volunteers and Nature - Working together for Everyone!
